

PROJECTS FOCUSED ON IMPROVING ENVIRONMENTAL QUALITY

The Bio-Vert Green Action Fund is designed to support tangible action-oriented initiatives that have a measurable environmental impact and serve the interests of local communities.

Eligibility Criteria

- Applicant is a person, an association, a group of people or a non-profit organization
- Group applications include at least one person age 18 or over
- Project, once carried out, will have a tangible impact on environmental quality
- Project will be carried out in Québec
- Project will not span more than 6 months

Ineligibility

Political or religious organizations as well as for-profit organizations are automatically excluded from the review and selection process.

How to Apply

All project applications must be submitted using the appropriate form and must contain the following information:

- Profile of the group/organization and the members of the project team
- Description of the environmental issue that is the focus of the project
- Description of the project in terms of objectives, tangible actions and the territory it is intended for
- Estimated budget
- Projected timetable
- Benefits to the environment
